Summary

Innovative and detail-oriented Full Stack Developer seeking to contribute technical expertise in front-end and back-end development to build dynamic, secure, and scalable web applications.

Education

Chandigarh University

Bachelor of Engineering in Computer Science and Engineering

Aug.2021-June.2025

Greenland Secondary School {XII (NEB) }

2018 - 2020

Technical Skill

- Languages: Java, Html, CSS, JavaScript, C++
 - Frameworks: Tailwind CSS, React.js, Next.js
 - Developer Tools: VS Code, Android Studio, Eclipse
 - Technologies: Git, Github
-

Training

Front-end Web Development(Broadways Infosys, Kathmandu)

June.2023-Aug.2023

Projects

AI Resume Builder (full Stack)

- Built and deployed a full-stack AI Resume Builder using the MERN stack with features like resume creation, live preview, AI optimization, image upload, and multiple templates.
Developed frontend with React/Tailwind and backend with Node/Express/MongoDB, integrating Google Gemini AI and ImageKit, and deployed.

RedStore – E-Commerce Website

Technologies: HTML, CSS, JavaScript

- Developed a responsive e-commerce website for athletic and sportswear with product listings, shopping cart, checkout, and a mobile-friendly UI/UX featuring dynamic search, filtering, and product pages

Portfolio Website

Technologies: Next.js, React, Tailwind CSS, Framer Motion

- Developed a responsive Next.js portfolio with Tailwind CSS featuring scroll-triggered animations using Framer Motion and a smart dark/light mode with automatic theme detection

Bhasamitra (Front-end Project)

- BhasaMitra is an AI-powered app designed to help users learn Nepali and other local languages through interactive chat, voice recognition, and gamified quizzes. It offers progress tracking and certification, making language learning engaging for tourists, students, and the diaspora.

Fixed Point Theory for AI-Based Network Traffic Management

- Developed an AI-driven intelligent traffic control model using mathematical optimization and implemented it with Python and network simulation tools.

Achievements

- Solved 200+ Questions on Leetcode | [Profile](#)
-

Certificates

- Introduction to Object-Oriented Programming Java ([Coursera](#))
- Java For Android ([Coursera](#))
- The Complete React Js and Redux Course - Build Modern Web Apps([Infosys](#) Springboard)
- Introduction to Web Development with HTML, CSS, JavaScript ([Coursera](#))
- Database and SQL ([Infosys](#) Springboard)
- Principles of UX/UI Design ([Coursera](#))
- Javascript ([Infosys](#) Springboard)
